What is Bring It Home?

Bring It Home is a local effort by the Hutchinson Area Chamber of Commerce, CVB to raise the awareness of how Hutchinson consumer spending decisions affect our local economy. We want residents to at least think twice before spending out of town or on the internet.

We Know!

We understand there may be times that you need to do business outside of our community. There may be products or services that are not available here or in the area. However, there is room for improvement!

We hope you will work with us in this effort, as a consumer or business, to bring lost dollars back to Hutchinson to help keep us economically viable.

If you own or manage a business and you would like to support this effort further, please contact Bill Corby at 320-234-0785.
